

TCustomz Productionz Demo (Free) Download Agreement

**** PLEASE READ COMPLETELY BEFORE USE ****

A free demo download is a tagged (audio watermarked) version of an instrumental that is provided to an artist for *demonstration purposes only*.

This means that if you are planning to record a song to one of our instrumentals and make it available online to the public (*even if it's only for non-profitable use* or stream via YouTube, Soundcloud, Instagram or any other online platform), a license **must** be purchased.

The free download shall only be used for casual listening or a personal demonstration song. PRIVATE USE ONLY.

If you plan on using any instrumentals for your project, album, single or other public release please obtain the appropriate license: www.TCustomz.com/licenses

To purchase a license to a high-quality untagged beat go to www.TCustomz.com
(Use the *SEARCH BOX* to type in the title of your desired beat.)

All beats produced, arranged and mixed by TCustomz of TCustomz Productionz.
